

ACCESSORIES

Bait Boxes

Top quality Fox Bait Boxes have many features that leave other designs lagging behind! They have a unique soft rubber inlay in their lids to provide an escape proof and totally water-tight seal. Each model has a translucent plastic insert in the lid, allowing the contents to be viewed, rather than having to open all the boxes in your carryall to find the particular bait you require!

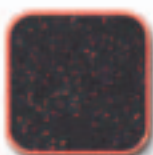

Popular 1.1 pint, 2.2 pint and 3.3 pint capacities are available and there are two versions: standard black and blue designs with holes in their lids to aerate live baits, plus green and translucent grey versions with no lid perforations for storing pellets, sweetcorn and other inert baits.

Blue

Translucent Grey

Black

White

Translucent Green

Rubber rim for a perfect air-tight seal.

Translucent lids allow for easy bait identification.

Holes in lid for storing live bait.

White bait boxes are ideal for use with bloodworm and joker.

MAGGOT & PINKIE RIDDLES

Plastic inserts designed to riddle sawdust & maize from maggots and pinkies that fit in the top of the 2.2 and 3.3pt Fox Match Bait Boxes. Two sizes are available, a smaller mesh for pinkies and a larger one for maggots. Two per pack.

MAC009 Maggot Riddle

MAC010 Pinkie Riddle

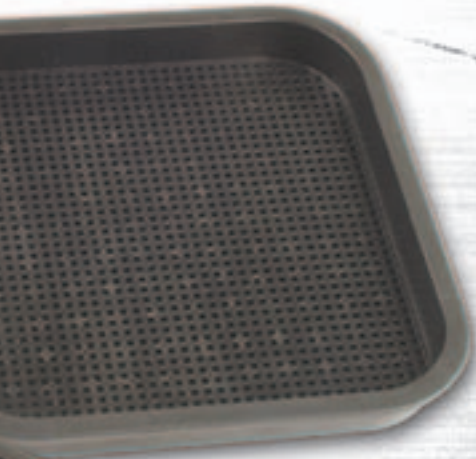

“Without doubt, these are now the highest-quality, and most practical, bait boxes you can buy in this country”

Dave Woodmansey, Angling Times

ACCESSORIES

Catapults

FOX PULTS

Fox 'Pults' represent outstanding value for money. The handles have been ergonomically designed for comfort, and the top entry elastic system allows the pouch to be fired from either side and virtually eliminates tangles. The Midi elastic is suitable for medium range whilst the Mega is better for medium to long range.

FOX PULT MEGA

The Mega is ideal for medium to long range.

R3176	Fox Pult Mega	£4.20
-------	---------------	-------

FOX PULT MIDI

The Midi elastic is suitable for close to medium range.

R3175	Fox Pult Midi	£4.20

GROUND BAIT PULTS

Both Groundbait Pults feature a one-piece moulded pouch designed specifically for introducing balls of groundbait. The frames have a soft rubber inlay, ergonomically designed to fit comfortably in the palm of the hand. The top entry elastic system allows firing from either side for speed and ease of use.

MIDI GROUND BAIT PULT

The yellow elastic has a mellow action making it ideal for distances between 30 and 45 metres.

R2992	Midi Groundbait Pult	£7.99
-------	----------------------	-------

MEGA GROUND BAIT PULT

The stronger red elastic is ideal for propelling balls between 35 and 50m.

R2993	Mega Groundbait Pult	£7.99

Easy Feed Catapult

**NEW
FOR 2007**

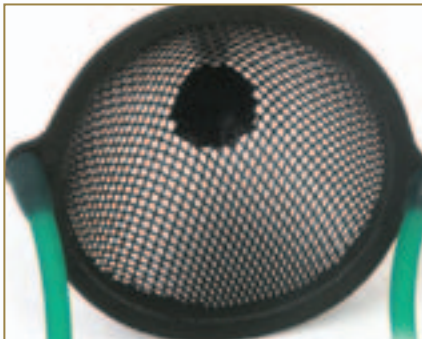

Left to right:
River Pult, Match Pult, Canal Pult
and Pole Pult.

Features

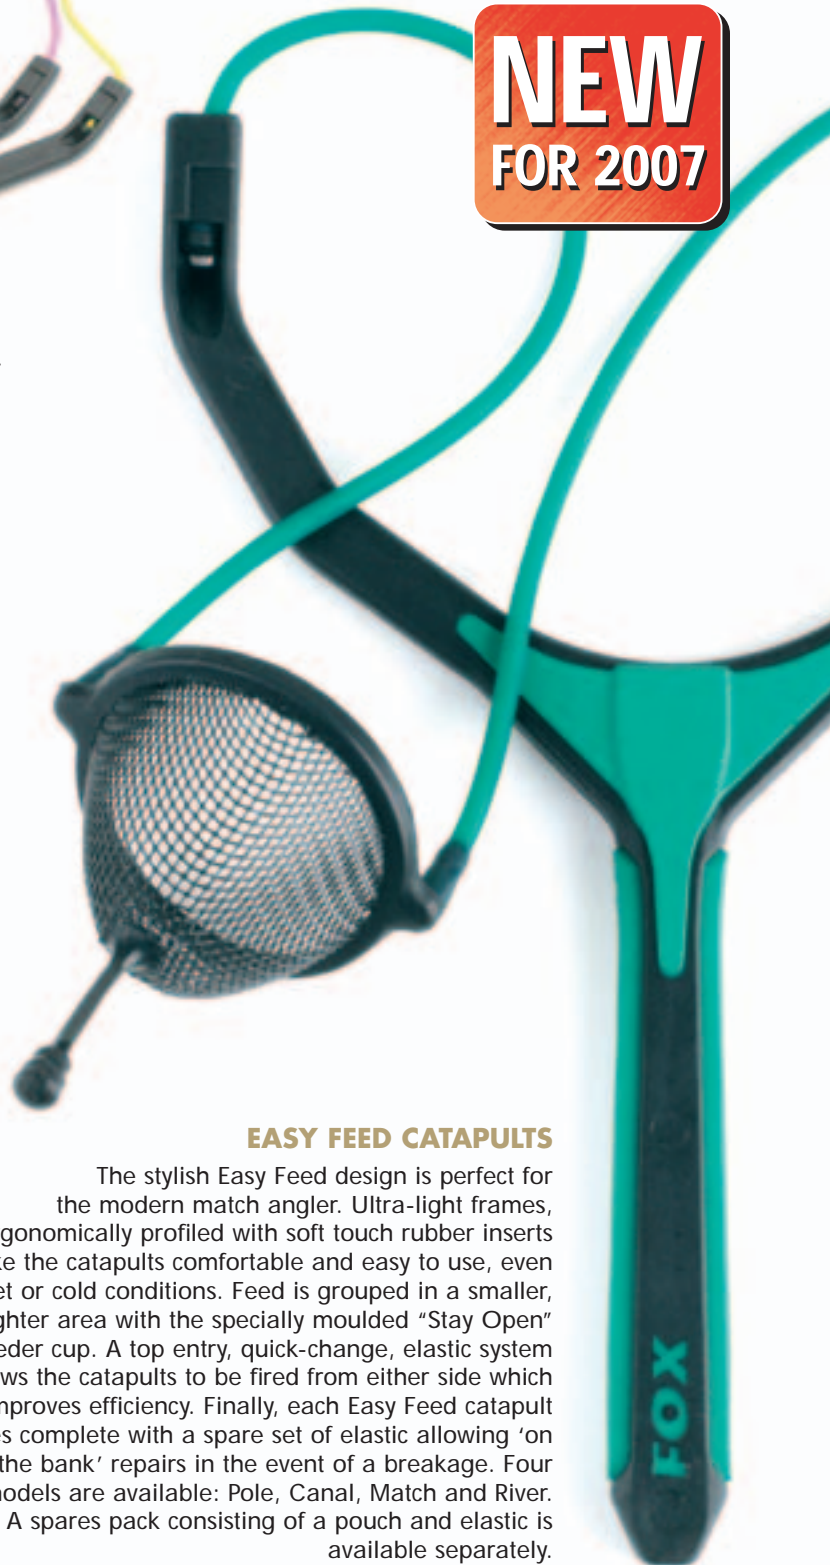

1

Easy grip non-slip moulded pull tab.

2

NEW!
Stay-open Feeder cup.

EASY FEED CATAPULTS

The stylish Easy Feed design is perfect for the modern match angler. Ultra-light frames, ergonomically profiled with soft touch rubber inserts make the catapults comfortable and easy to use, even in wet or cold conditions. Feed is grouped in a smaller, tighter area with the specially moulded "Stay Open" feeder cup. A top entry, quick-change, elastic system allows the catapults to be fired from either side which improves efficiency. Finally, each Easy Feed catapult comes complete with a spare set of elastic allowing 'on the bank' repairs in the event of a breakage. Four models are available: Pole, Canal, Match and River. A spares pack consisting of a pouch and elastic is available separately.

MAC034	Pole Pult	£5.99
MAC035	Canal Pult	£5.99
MAC032	Match Pult	£5.99
MAC033	River Pult	£5.99

A plastic hard case stops rigs from being damaged in transit and also prevents line from UV degradation.

MICRO PLUS LINE
Award winning Micro Plus is used as main line and hooklengths on all the rigs.

FOX MATCH HOOKS
The highly acclaimed Series 2 range of hooks is used on all the rigs designed for Carp and Commercial fisheries.

When we first asked Polly to design a range of ready made Pole rigs he made one thing clear at the very start: 'he would not compromise on components or quality'. Everything had to be tied precisely and all the items were selected to create his perfect rig - no old or end of line stock here chosen to keep the price down. In short: Mark wanted rigs he would happily use himself.

ACCESSORIES

Match Ready Rigs

TOP QUALITY FLOATS
Fox Match MP and MXP pole floats are used on every rig. Each float is a current pattern and has been selected to complement the rig.

**NEW
FOR 2007**

Floats are from the MX and MXP range; line is the award winning Micro Plus; hooks are Series 2 and other best sellers and each rig comes on a sliding pole winder. Every Ready Rig comes in a protective plastic box and has diagrams and full instructions on how to get the best from it. The comprehensive range covers all styles of fishing from Commercial Fisheries to more traditional methods.

Unfortunately each rig isn't hand tied by the man himself, but rest assured the quality is such they're of a standard he would happily use, and he regularly does!

CORN & LUNCHEON MEAT STOPS

Small stops which are perfect for corn and meat. The colour and profile for both models have been specially chosen to match the bait and provide greater security.

MAC067 Corn Stops

MAC068 Luncheon Meat Stops Small

MAC069 Luncheon Meat Stops Medium

MAC070 Luncheon Meat Stops Large

PELLET BANDS & PASTE STOPS

Paste stops are unique because they can be removed, so normal hair rigging of other baits can occur without changing the hook-length. Each packet contains 3 sizes. The bands are translucent and include a small tab to the hook. Ideal for use with a wide range of pellets on pole or waggler.

MAC071 Pellet Bands Small

MAC066 Paste Stops

MAC072 Pellet Bands Medium

MAC073 Pellet Bands Large

MEAT PUNCHES

Cylindrical punches designed to create meat shaped pellet hookbaits. Can also be used with bread and most other 'soft' baits. A chamfered leading edge punches a clean pellet shape and a concave edge behind the cutting chamber allows the bait to slide cleanly out. Supplied three per pack, a small and large size are available.

R5186 Set 1 - 4mm/7mm/9mm

R5187 Set 2 - 12mm/15mm/17mm

SQUARE MEAT PUNCHES

Designed to cut cubes of luncheon in three different sizes, fresh for the hook. Similar to the Fox round meat punches but being square they mimic the loose feed offerings commonly fed on commercial fisheries. Ideal for carp, barbel, bream & chub. Three punches per pack.

- Unique square pellet to match the shape of chopped meat.
- Soft touch handle.
- Anti roll handle - triangular profile to prevent rolling off the bait tray.
- 3 sizes to cover all match situations.
- CAD engineered and injection moulded for long lasting durability.

MAC031 4mm/6mm/8mm

MINI BOILIE PROPS

Fox Mini Boilie Props are a low profile bait stop that feature a unique curved underside which hugs the hookbait, following its contours. This ensures the Boilie Prop sits flush against the bait providing a discreet yet totally secure anchor point for the hair loop.

MAC074 Clear

MAC075 Brown

MAC076 Yellow

PASTE STOP NEEDLE

The Paste Stop Needle has been designed to attach a Fox Paste Stop to a hair rig. Made from high quality stainless steel with a moulded soft touch grip. Also perfect for hair rigging small and soft baits.

MAC077 Paste Stop Needle

EXTRA STRONG BARBLESS HAIR RIGS

Identical in design to the strong Barbless Hair Rigs, the Extra Strong version features our Series 2XS hooks. The breaking strain of line has also been increased making these ideal for very big fish or feeder fishing. Also supplied with matching hair stops. 8 per pack.

MRR041	Meat Size 12 Barbless
MRR042	Corn Size 18 Barbless
MRR043	Pellet Size 16 Barbless
MRR044	Mini Boilie Size 14 Barbless

**NEW
FOR 2007**

BARBLESS HAIR RIGS STRONG

Barbless hair rigs tied to Series 2 hooks and Micro Plus line. The breaking strain of line, hook size and hair length has been designed specifically for the bait shown. Each pack comes supplied with a respective hair. 8 per pack.

MRR037	Meat Size 12 Barbless
MRR038	Mini Boilie Size 14 Barbless
MRR039	Pellet Size 16 Barbless
MRR040	Corn Size 18 Barbless

**NEW
FOR 2007**

BREAD PUNCH SET

Highly practical precision formed punches designed by Mark Pollard. The shallow nature of the heads and sharp leading edge means the pellet of bread is compressed when it is formed so it stays on the hook for longer. Supplied in sets of six, the small set covers every canal application while the larger pack is perfect for river and still water fishing, or when targeting bigger fish.

**NEW
FOR 2007**

MAC085	Sizes 2 - 7
MAC086	Sizes 8 - 12

PELLET DRILL

Fine 1mm drill designed specifically for hard pellets. Preparing a handful of pellets prior to fishing means they can be mounted directly on to a hair or a bait band can be pulled through (using a baiting needle), which can then be attached to a hook. A 'must have' item for pellet fishing on commercials.

**NEW
FOR 2007**

MAC090 Pellet Drill 1mm
