ELITE LUGGAGE

Rigid Holdalls

The Elite Rigid Holdalls feature stiff moulded EVA panels, covered with highly durable 1200 Denier nylon outers.

The rigid sections provide a greater degree of protection to poles, rods and other stored items*. All zips on the Elite luggage have been reversed with the teeth running inside the material so mud and grit won't jam the system.

**Please note: we would always recommend the use of tubes in addition.*

RIGID ELITE MATCH COMBO HOLDALLS

The Combo Holdall features a large rigid main compartment that will hold up to four tubes. A long external pocket, on one side, will take umbrellas, banksticks and landing net handles. Comes complete with two detachable rod sleeves which house 12 or 13ft two-piece rods, fully assembled, complete with reels. Additional sleeves can be purchased separately in 12 or 13ft versions.

MOULDED ZIPS

Fox realise the stress and strain zips come under and have paid particular attention to this area of the design. All Elite luggage has extra strong high quality zips with soft touch pullers.

Tubes and equipment not included.

RIGID SIX TUBE HOLDALL

Consists of one main compartment which holds six tubes. Two additional internal pockets provide storage space for banksticks, umbrellas and landing net handles. A full length zip allows the holdall to be opened out flat for easy access. Other features include deluxe strap, soft touch zip pullers and stylish rubber logo.

MLU025 Elite Rigid 6 Tube Hard Case £59.99

RIGID CONTINENTAL HOLDALL

This twin division holdall has a massive ten tube capacity. One compartment holds six tubes, and the second holds four tubes with two further pockets to house banksticks and umbrellas. A soft touch neoprene lifting handle and highly padded, fully adjustable shoulder strap allow the Continental to be carried comfortably.

ELITE™

Rod Holdalls

ELITE CONTINENTAL ROD HOLDALLS

The Elite Continental Rod Holdalls come in two sizes and each has been designed to hold a total of ten tubes. The holdalls are split into two compartments - the first compartment holds six tubes, with the second holding four tubes, all of which are held in place via Velcro straps. The second compartment also has the addition of two pockets designed for storing an umbrella and banksticks. The external zips run around three sides of each compartment allowing the holdall to be laid flat for easy access. The X-long version being suitable for longer mandril poles.

MLU021

ELITE JUMBO CARRYALL

Approximately 25% bigger than the Large Carryall, the Elite Jumbo Carryall has an even larger EVA moulded base and massive storage capacity. The base extends across the whole width of the bag, including the net pocket, which means the carryall doesn't topple when placed on the ground fully loaded. In addition, there are two large pockets providing extra storage space at either end. The Elite Jumbo Carryall has a large internal space for storing all tackle, bait and clothing required. Included with the Jumbo is an additional zipped section designed for bait trays and the rear of the carryall has a zipped pocket that runs the full width of the bag.

MLU020

ELITE LARGE CARRYALL

The Elite Large Carryall has a substantial internal capacity and both side pockets have been increased making them ideal for storing kilo bags of groundbait. The external net pocket will house all Fox Match side trays. Entry to the main compartment is via a zip that runs around three sides of the main compartment and once inside there are two internal webbed pockets. The rear of the carryall has a zipped pocket that runs the full width of the bag. Padded handles and a fully padded sculptured adjustable carry strap make transportation easy.

MLU020 Elite Large Carryall £39.99

GROUNDBAIT BOWLS WITH LID

Available in two sizes, the Elite Large and the Elite Medium Groundbait Bowls both have lids to keep your groundbait in perfect condition. Manufactured from a durable material that incorporates a wipe clean inner, a wire hoop is built into the top and ensures the bowl retains its shape when in use and allows it to fold flat for transportation. Both models have a pair of foam handles. The large bowl (with lid) measures 310mm in diameter and 170mm in depth making it perfect for mixing up to 3 kilos of groundbait. The medium model (with lid) measures 270mm in diameter and 130mm in depth making it perfect for mixing up to 2 kilos of groundbait.

LU5227	Medium	£7.99
LU5228	Large	£8.99

GROUNDBAIT BOWLS

Available in Large and Medium versions, both Elite Groundbait Bowls incorporate a wipe clean inner. A wire hoop is built into the rim to ensure the bowl retains its shape when in use and allows it to fold flat for transportation. The Elite Large Groundbait Bowl measures 320mm in diameter and 150mm in depth and the Medium Bowl measures 270mm in diameter and 110mm in depth.

LU5202	Medium	£4.99
LU5203	Large	£5.99

Groundbait Bowl with lid.

Groundbait Bowl without lid.

All the handles on the Elite range have soft touch sure grip foam handles for extra comfort when carrying heavy loads.

System of 3 Groundbait Bowls

ELITE GROUNDBAIT BOWLS

The system comprises three bowls all incorporating a wipe clean inner. Built into the rim is a wire hoop, this ensures the bowls retain their shape when in use and allows them to fold flat for transportation. The XL Bowl incorporates a pair of foam grip handles for easy transportation and a zipped lid to keep groundbait moist, whilst the Large and Medium Bowls are open-topped and can be stored in the XL Bowl when not in use.

--------	--------------------------	--------

DIMENSIONS	Diameter	Depth	Capacity
XL Bowl	370mm	190mm	4.0kg
Large Bowl	310mm	170mm	3.0kg
Medium Bowl	270mm	130mm	2.0kg

MICRO DRY HAND TOWEL

This special high performance micro-fibre towel is antibacterial and up to three times more absorbent than standard towelling fabrics. This makes it ideal for general angling use including cleaning and drying equipment. The Micro-Dry fabric is extremely fast drying and the anti-bacterial action prevents odour retention caused by active bacteria. The material is exceptionally durable and will not bobble or fade even after high numbers of machine washes.

The Micro-Dry hand towel is made from a Ultra fine Microfibre, which is 100 times finer than the human hair. Manufactured with Ultra High Density contraction, it doesn't retain water, sweat and residual fat on the skin. Its triangular section thread absorbs anything in itself efficiently and the cleansing efficiency is second to none.

**NEW
FOR 2007**

- Quick Drying
- Odour free
- Anti-bacterial
- Super absorbent
- Soft, light and extremely durable
- Complete with zip bag

Bait boxes not included.

ELITE COOL BAGS

The Elite Large Cool Bag has a special thermally insulated lining which will keep your bait in excellent condition and at a constant temperature in both summer and winter. The large main compartment accommodates four Fox 3.3 pint bait boxes and there's still enough room for other baits like bloodworm, joker, tins of corn and meat etc. A uniquely designed zipped top flap allows you to partially open the bag to remove items minimising heat loss, keeping the internal

temperature more stable. Complete with a pair of foam grip handles and an adjustable carry strap, each end has a webbed pocket internally and externally for extra storage and the front has a handy zipped pocket. Identical to the Elite Large Cool Bag but smaller in size, the Elite Medium Cool Bag will accommodate two Fox 2.2 pint bait boxes with room to spare for other baits.
