FOX MICRO PLUS+

Dave says: This line reminds me of an old favourite line of mine – Pro Micron. I've been trying it out on some of my pole rigs over the past few weeks, with some very good results. I think the additional free 25m spool of a lighter diameter is an excellent idea. Expect other companies to follow suit!

The diameters are very accurate all the way through the sizes, and the line has plenty of stretch. It also fared well on the breaking strain tests we conducted. Out of all the lines on test here, this is by far my favourite.

DAVE'S FAVOURITE

Diameters available: 0.12mm; 0.14mm; 0.16mm; 0.18mm; 0.20mm; 0.22mm; 0.25mm

Actual diameter of the lines: 0.12mm measures at 0.126mm; 0.14mm = 0.145mm; 0.16mm = 0.168mm; 0.18mm = 0.187mm; 0.20mm = 0.204mm; 0.22mm = 0.228mm; 0.25mm = 0.253

Stated breaking strain of each diameter: 0.12mm breaks at 3lb 6oz; 0.14mm = 4lb 8oz; 0.16mm = 5lb 9oz; 0.18mm = 7lb 9oz; 0.20mm = 8lb 9oz; 0.22mm = 10lb 2oz; 0.25mm = 13lb 2oz

Actual breaking strain of 0.14mm (or closest) diameter on a knotted pull: 0.14mm (actually 0.131mm) broke at an average of 3lb 9oz

Price: £4.99 per 100m spool (plus a 25m spool)

Match Fishing

- Available in 12 diameters
- Exceptional Diameter Accuracy
- Laser Controlled Technology
- Superb Wet Knot Strength
- Controlled Stretch
- High Breaking Strain Ratio
- Crystal Clear

Line clip.

When you buy a 100m spool you receive an additional 25m 'hooklength' spool **FREE**

SPECIALIST MONO

Designed for specialist anglers after carp, barbel and chub, Specialist Mono also makes a great feeder line for carp and other large species. Soft, supple and with excellent abrasion resistance, it is not only strong but also lasts a long time on the reel. After treatment with washing up liquid it sinks quickly and offers a controlled stretch. Available in 6lb and 8lb.

MICRO PLUS +

Micro Plus+ is a new generation of crystal clear, low diameter, precision monofilament line. Manufactured to exacting standards, Micro Plus+ uses the latest laser technology to measure and calibrate the diameter, thus creating incredible consistency throughout its length. As well as exceptional accuracy, Micro Plus+ has a superb wet knot strength to diameter ratio. This exceptional line has been thoroughly tested by the Fox consultants and meets the high standards expected of any product carrying the Fox name. Every 100m spool of Micro Plus+ comes complete with a FREE miniature spool, containing 25m of a lower diameter 'hook-length' material.
