ENVOY™

“Possibly one of the best ranges of Float Rods on the market today!”

Match Rods

ENVOY MATCH 13'/15'

Features a 24" extension, making this rod 'two for the price of one'. When fished at the shorter 13' length the Envoy is ideal for all types of float fishing but when you add the extension, it converts the rod into the ideal tool for fishing deep water or control a float in down stream winds. Delightfully balanced with a progressive through action to control large fish, the combination of power and finesse makes it one of the best all-round rods available whether you're fishing on commercial carp fisheries or rivers and drains. Ideal for reel lines from 0.10mm to 0.16mm and hook lengths down to 0.06mm

MRD015 Envoy Match 13'/15' £130.00

ENVOY WAGGLER 13'

A light, crisp, progressive through action float rod designed primarily for Wagglers up to 8 gms. The Envoy is also suitable for light stick work 'down the edge' on narrow rivers. Capable of positively setting small hooks, even when used in conjunction with low diameter hook lengths. Best used with reel lines from 0.10mm to 0.16mm and hook lengths down to 0.07mm.

MRD010 Envoy Waggler 13' £115.00

ENVOY CARP MISSILE 12'

On hot summer days when carp are cruising on the surface, or high in the water, the 'big float' is often the method and can prove unbeatable. The Carp Missiles' light, slim blank is a real power house with plenty of muscle in the mid section for casting big floats ranging between 20 and 40gms. A soft top section ensures hook pulls are minimized during the initial take and when playing fish under the rod tip.

MRD016 Envoy Carp Missile 12' £115.00

ENVOY CARP FLOAT 13'

The 13ft Carp Wagglers rod is ideal for standard style wagglers up to 14 gms in weight. As well as being ideal for 'commercial' waters, the Carp Floats characteristics make it the perfect choice for Chub and Barbel on running water. Best used with reel lines from 0.12mm to 0.20mm and hooklengths from 0.10mm to 0.20mm.

MRD014 Envoy Carp Float 13' £110.00

Features

1 Durable Lined Fox 'SLIKS' are used on all Envoys.

2 Exclusive 'screw down' DS16 'soft touch' reel seats are used throughout the Envoy range.

ENVOY STICK 14' (not shown)

This 14ft rod has extra length for added control when fishing 'stick' floats. Due to the quality of the Envoy blanks many anglers would find control and casting as easy as with many traditional 13ft rods. Displays a progressive action which allows additional pressure to be added to larger fish without fear of 'locking up', the Envoy stick is ideally suited to the low diameter hook links often required to get bites from very shy fish.

MRD011 Envoy Stick 14' £120.00

ENVOY STICK 15' (not shown)

A well-balanced 15ft rod designed for fishing stick floats on deeper rivers or in windy conditions where greater control is essential. A crisp, yet progressive through action means this rod is capable of handling big and small fish alike and can be used with ultra fine bottoms safe in the knowledge that the cushioned tip will absorb any lunges by big fish to prevent break-offs at the net.

MRD012 Envoy Stick 15' £130.00

ENVOY MULTI FEEDER 13'

“Covers all fishing situations from finesse light bomb work for skimmers to big match carp work on the commercials.”

Angling Times

FOX MULTI FEEDER 11ft/12ft/13ft MATCH ROD

FOX has released a comprehensive new range of 11 float and feeder rods under the Envoy banner and describes them as the best match rods it has ever produced.

Prices range from £99.99 for an 11ft bomb rod, to £225 for the versatile Envoy Multi Feeder rod pictured here. All the plain grey blanks are made from top grade carbon with silver cosmetics, durable Fox Siks handles, exclusive Fox reel seats and lightweight, highly durable Fox Siks guides.

The Multi Feeder featured is supplied with three different length butt sections, universal middle and tip carrier sections and six push-in tips. It can be fished at 11ft, 12ft and 13ft lengths and covers all fishing situations, from finesse light bomb work for skimmers to big match carp work on the commercials.

ENVOY™

Multi Feeder Rod

MRD009	Envoy Multi Feeder	£199.99
--------	--------------------	---------

The Envoy Multi Feeder follows hot on the heels of the best selling Vario Multi Feeder, a rod which was voted Best Feeder Rod in the National Angling Awards in 2003.

The Envoy is a similar system coming complete with 6 tips, from an ultra fine 24 inch tip down to a 14 inch super stiff model and three butts allowing the rod to be used at 11ft, 12ft or 13ft. Where the Envoy differs from the Vario is the blank. By utilising new materials the blank is even lighter and crisper and can be used at any length, or with any tip, without any loss in action. This really is a 'one stop' solution for all your feeder fishing needs.

Features

- Feeder Types: Feeders and bombs up to 57grams
- Use: Rivers, Canals, Drains, Lakes and Commercials
- Rod Length: 11ft-12ft-13ft. 6 Interchangeable tips supplied in protective carry tube
- Handle: Full cork handle with exclusive 'screw down' DS16 'soft touch' reel seat
- Rings: Fox Single Legged 'SLIK' guides
- Blank: High modulus graphite carbon blank
- Reel Lines: 0.12mm to 0.18mm
- Hooklengths: 0.06mm to 0.16mm
- Hook Retainer Eye

The Envoy Multi Feeder comes complete with 6 interchangeable tips supplied in a protective case.

“ A fantastic feeder tool! ”

ENVOY™

Carp Feeders

The Envoy Carp Feeders have been designed as the perfect tools for modern day feeder fishing on commercial carp fisheries.

All three models have soft forgiving tip sections to prevent broken hook lengths and hook pulls on the initial take. This also helps when applying pressure to keep hooked fish from bank side snags. Flawless progressive actions allow power to be loaded through the blank creating exceptional casting power. All three models come with a minimum of three push in tips to allow perfect bite detection regardless of conditions. The lighter glass tips come into there own for winter fishing, or when fish aren't feeding confidently, whilst the heavier carbon tips are perfect when using method or Carp Feeders. The carbon tips have larger diameter rings to allow the easy passage of shock leader knots and thick monofilament. These super-slim lightweight rods are possibly the best Carp Feeder rod ever produced!

“They cast like a dream and are a pleasure to play fish on, what more can I say.”

Derek Willan

Features

1

The Carp Feeders have triple leg, Slik lined guides. The highly durable silicone based lining can withstand prolonged use with braid and heavy mono.

2

All quivers are painted fluorescent orange. A luminous white backing creates an even brighter look which makes bite detection even easier.

3

All rods on this page are supplied with four tips in total. Every tip has its test curve printed on it for easy identification. They are also marked 'glass or carbon' to avoid confusion.

ENVOY™ CARP FEEDER 12'

The 12ft Envoy Carp Feeder will comfortably cast feeders up to 3ozs/84gms in weight and comes complete with three push-in tips: a 2oz glass model and two carbon tips rated 3oz and 4oz. Best suited to reel lines reel lines from 0.12mm to 0.22mm and hook lengths from 0.10 to 0.20mm.

MRD001 Envoy Carp Feeder 12' £120.00

ENVOY CARP FEEDER 13'

The 13ft Envoy has an identical specification to the 12ft model including: an exclusive screw reel seat; SLIK lined rings and a super slim high modulus blank. The extra 12 inches comes into its own for casting greater distances. Although classed as a 'Carp Feeder' the rod is also perfect for long range fishing for Bream.

MRD002 Envoy Carp Feeder 13' £130.00

ENVOY CARP MULTI FEEDER 11'/13'

This exceptionally light, multi-length feeder rod has all the casting and fish-playing characteristics of the 12ft & 13ft Envoys but has the option of being fished at two different lengths thanks to a 2' extension piece. Whilst originally designed for casting big feeders and controlling hard-fighting fish on carp waters, the Envoy 11ft/13ft is equally at home with long distance fishing for Bream. The 11/13ft comes with four interchangeable tips, a 1oz and 2oz glass tip designed for stillwater Bream and Carp fishing, with the more robust 3oz and 4oz carbon tips when bites are likely to be more positive, particularly when heavy feeder fishing.

MRD017 Envoy Carp Multifeder 11/13' £145.00

Envoy Carp Feeders have sensitive tips to detect the subtlest bites combined with the power to land double figure fish, even in weedy or snaggy swims.

ENVOY CARP FEEDER 13'

ENVOY™

Feeder Rods

“High quality rods for the discerning angler”

Envoy Feeder rods feature spliced Carbon tips that produce flawless curves without any hint of a flat spot. Power builds gradually through the light, slim blanks giving the Envoys strong progressive actions. The progressive action allows the blanks to be loaded when casting large feeders, whilst minimising hook pulls, even when using braided reel lines.

Each tip is a highly luminous orange colour to aid bite detection. All four models are manufactured on high quality blanks and feature exclusive Fox screw down reel seats producing a secure comfortable method of attaching reels to the blank.

ENVOY BOMB 11'

The exceptionally 'slim build' Envoy Bomb rod has a really sweet progressive action and features a spliced carbon tip which creates a flawless curve without any hint of a flat spot. Designed as an 'all-round' bomb rod, it is equally at home winter carping on commercial waters as it is for catching shy-biting Roach & Bream on stillwaters and rivers. Will cast feeders and bombs up to 43grams and is best matched to reel lines from 0.10mm to 0.16mm and hook lengths down to 0.06mm.

MRD003	Envoy Bomb 11'	£99.99
--------	----------------	--------

ENVOY MEDIUM FEEDERS

The Envoy Medium Feeders are extremely forgiving rods that absorb sudden lunges of big fish under the rod tip, eliminating hook pulls. Both lengths are suitable for rivers, lakes & commercial fisheries and species as diverse as Carp, Chub, Barbel and Bream. The Envoy Medium Feeder 13ft has a similar action to the 12ft model but the increased length makes it ideal for longer distance casting.

MRD004	Envoy Medium Feeder 12'	£110.00
MRD006	Envoy Medium Feeder 13'	£115.00

ENVOY CANAL TWIN TIP 12'

This 12' Canal rod contains bundles of Mark Pollard's influence. Although the pole has become the number one method on canals, a light waggler rig can still catch the odd bigger fish as the method creates less disturbance over the fish's head. An ultra soft tip section enables hooklengths as low as 0.06mm to be used comfortably and hooks as small as size 24. The progressive action provides power to handle bigger fish if hooked.

MRD008	Envoy Canal Twin Tip 12'	£120.00
--------	--------------------------	---------

ENVOY HEAVY FEEDERS

The Envoy Heavy Feeders have an identical action to the medium style namesakes but feature approximately 25% more power, allowing feeders and bombs up to 2oz/56gms in weight to be cast with ease. The solid carbon tips mean bite detection isn't compromised. Best used with monofilament reel lines from 0.14mm to 0.20mm and hook lengths down to 0.12mm.

MRD005	Envoy Heavy Feeder 12'	£115.00
MRD007	Envoy Heavy Feeder 13'	£120.00
