STAX BOX 175 SERIES

The 175 Series features two deep front drawers and a deep side drawer. Each drawer has a stylish, woven carbon front. A detachable 150mm base provides ample storage for reels, catapults and other bits of terminal tackle. The area under the seat is fully lined on both sides with 180mm Fox Match pole winders.

MMB002	175 Series	£259.99
--------	------------	---------

STAX BOX 75 SERIES

The 75 Series is a compact box ideally suited to anglers who fish commercial fisheries and canals. The detachable 100mm base will easily take a couple of reels and other bits of terminal tackle. The area under the pole seat comes complete with 180mm winders. A deep front drawer is perfect for spools of line and larger items of terminal tackle, whilst the two shallow front drawers provide additional winder storage space.

STAX[®] BOX

A system built by anglers
for anglers

Stax Box *Features*

Stax is a revolutionary new Seat Box system. The system has been designed, so that each and every unit is completely interchangeable; allowing the user to build a box that exactly suits his or her requirements. Spare bases, drawer systems and winder trays can all be purchased separately at a later date, creating a modular system that can be changed quickly and efficiently.

Bases are manufactured from light weight fibre glass, that is strong and durable. The length of the legs can be adjusted using a secure, locking system that grips the square tubing without the usual screw marking. All drawers feature a new dividing mechanism that makes cutting and gluing strips of wood, a thing of the past. Seats are a completely new moulded concept, with a uniform gap down the middle, that are far more comfortable than traditional pole seats.

POLE WINDERS

1

The 175 & 150 Series boxes come complete with pole winders beneath the seat.

SEATS

2

Stax Boxes feature unique, foam lined, seats. These seats provide excellent cushioning and have a reinforced central gap to place poles in.

UNIQUE DRAWER DIVIDING SYSTEM

3

Stax Box drawers have special liners with grooves around the perimeter into which a series of dividers slide. This allows each drawer to be divided to the users requirements.

LEG LOCK SYSTEM

4

The leg lock system on all boxes is simple yet extremely secure. The handwheels feature soft touch rubber inlays making adjustment in cold conditions very simple.

STAX[®] BOX

100, 125 and 150 Series

STAX BOX 100 SERIES

The shallow 55mm base of the 100 Series is lined with two layers of winders. Retractable lifting handles allow the top tray to be lifted out quickly for easy access to the bottom level. Two shallow side drawers can be used for terminal tackle or provide additional storage space for winders, if required. The area under the seat will take up to 180mm Pole winders*.

STAX BOX 125 SERIES

The 125 Series utilises the same frame and leg system as the 150 and 175 series but features a more compact 100mm base. Two side drawers, one deep, one shallow, will accommodate items such as winders, spools of line, hooks and disgorgers etc. Comes complete with over 20 180mm Fox Match pole winders in the lined area under the seat. All drawer fronts are finished in a stylish dark blue along with a comfortable pole seat.

NOW **£199.99**

STAX BOX 150 SERIES

The 150 Series has a similar carbon fronted look to the 175 Series. A 150mm base houses reels, feeders plus other sundries. A lined area under the seat comes complete with 180mm Fox Match pole winders. The big difference to the 175 is the shallow (as opposed to deep) side drawer, which is ideal for anglers who carry lots of pole rigs.

MMB003 150 Series £199.99

STAX[®] BOX Accessories

Features

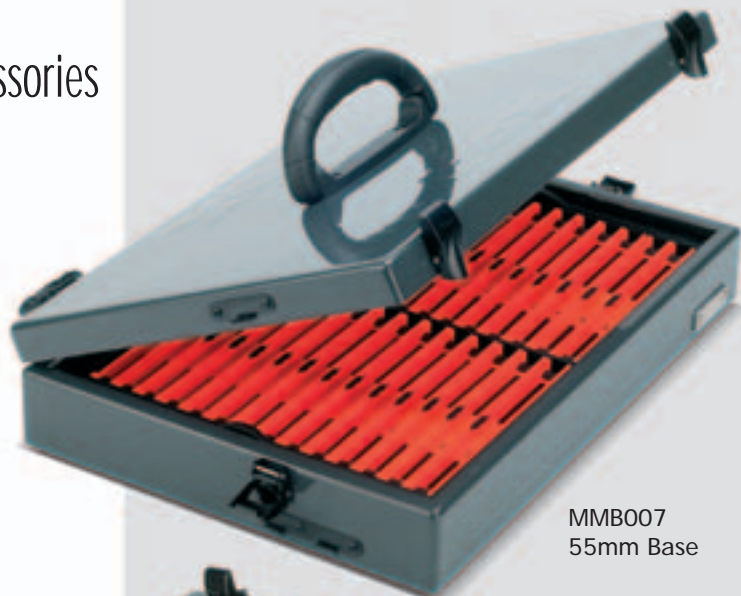

1

The base units of all Stax Boxes are completely modular and can be locked and 'stacked', one on top of the other.

2

The 55mm base has a lift out winder tray with additional winder space underneath.

MMB007
55mm Base

MMB008
100mm Base

The Classic Match Four Way Reel Case (not included) fits perfectly into the 100mm base.

STAX BOX SPARE BASES

The 55mm, 100mm and 150mm Stax fibre glass bases can be purchased separately. All models have removable lids, with a fold-down carry handle, allowing the unit to be transported independently of the system, if required, or fastened beneath the frame. Four rubber feet on the corner of each base protect from damage when placed on the ground.

The smaller 55mm base unit comes fully lined with 2 levels of winders. The first tray has two divisions of 180mm winders and the base has longer 250mm winders.

MMB007	55mm Base/Lid, tray & winders	£79.99
MMB008	100mm Medium Base	£69.99
MMB009	150mm Deep Base	£74.99

MMB009
150mm Base

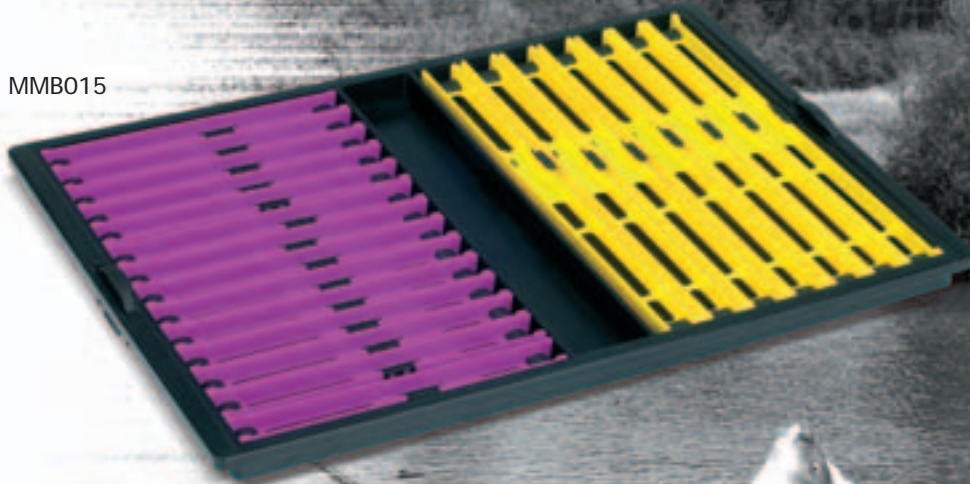

STAX BOX SPARE WINDER TRAYS

Spare winder trays that fit the 55mm Stax base. Two models are available: the first comes complete with seven 250mm winders and fourteen 160mm winders; the other comes complete with nine 250mm winders and fourteen 140mm winders, with locking grooves for exact positioning and security of winders.

MMB015	160mm/250mm	£26.99
MMB016	140mm/250mm	£26.99

Winder Trays

MMB015

All Fox winders and winder trays work on a tongue and groove system. Winders slot into place and cannot move around in transportation.
