

PLATFORMS AND TROLLEYS

PLATFORM BARROW

Light, strong and super stable, the new Fox Match Platform Barrow performs both functions exceptionally well. The surface area of the platform measures 675mm by 800mm so it will comfortably house a box and footplate. Each leg measures almost 600mm in length and a special, non-mark locking mechanism allows the platform to be raised over half a metre from the ground. The length of the trolley handles have been optimised to ensure perfect balance and the extra large, chunky wheel makes pushing heavy loads on uneven ground effortless. Elasticated straps can be used in conjunction with the trolley and secured to two points on each side of the platform.

MTR001	Platform Barrow	£124.99

**NEW
FOR 2007**

The barrows large surface area can accommodate a box, carryall, bait and makes light work of heavy loads.

TROLLEY STRAPS

1 metre lengths of multi-core elastic featuring a safety hook connected at each end. The plastic hooks are adjustable so each strap can be modified to suit length requirements when securing luggage to trolley assemblies. Three straps in a pack.

MB5333	Trolley Straps x 3	£5.99
--------	--------------------	-------

SYSTEM TROLLEY

Manufactured from super strong but amazingly lightweight aluminium, incorporating 'soft touch' grip handwheels and handle grip. Designed with easy assembly in mind - it takes less than a minute to put this brilliant trolley together! Also offers great adjustability to accept most manufacturers' seat boxes. The wheels are manufactured from a very hardwearing non-puncture E.V.A. and each wheel is pre-assembled with a stainless steel axle, incorporating high quality bearings. Fox Match Trolley Straps are recommended in conjunction with this product to totally secure the load.

Fully assembled, the Fox Match trolley weighs less than 2.9kg.

MB5330	System Trolley	£56.99
