ACCESSORIES

DEADBAIT

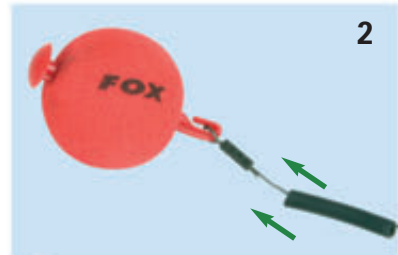

The ambitious predator angler faces many challenges and needs access to a flexible system that allows him to assemble a wide range of rigs for a multitude of different methods. Our leading consultants have explored every aspect of the sport and have helped us to develop the accessories that are needed to make rigging up quick, efficient and highly effective.

1. First of all slide the popper onto a stem of the appropriate length. Then slide a short length of 2mm tubing onto your pop up link.
2. Loop your pop up link connection over the hook on the popper stem and slide up the tubing to retain it firmly in position.
3. The finished set-up is now ready to be pulled through your deadbait.

Note: With whole baits, especially smaller ones, it is often better for the popper to be outside, pulled snugly to the mouth of the bait. With half baits, it's often better to pull the poppers right inside the bait.

3

"There's lots of ways of rigging them up – be inventive, the pike are rarely too fussy!"

Mick Brown

Bait Poppers and Stems

Highly buoyant foam balls that are resistant to pike's teeth. Excellent for popping up both live and deadbaits. The red colour is an added attraction, provoking pike into attacking. Connect them to your trebles using Fox Riggin Wire or a wire Pop Up link. Useful in catfish rigs too. Offers ideal presentation over weedy and silty bottoms. The introduction of the new Bait Popper Stems makes rigging up much easier.

PK8028	Medium 8 Balls	£2.25
PK8029	Large 6 Balls	£2.25
PK5651	X Large 4 Balls	£2.25
PAC020	Bait Popper Stems	£2.45

Deadbait Oil & Air Kit

Deadbait Punch & Foam

Buoyant Bombs

Paternoster Sunk Floats

Deadbait Floater Sticks

Kwik-Change Pop-Up Weights

Quick change counter balance weight system for buoyant deadbaits. Four sizes allow weight to be changed to suit the buoyancy of the bait without tacking down. Fixed to trace using solid rubber insert which also enables the weight to be slid along the trace. Locks very firmly into place.

PK2663	K.Change Pop-Up Weights Swan	£3.25
PK2643	K.Change Pop-Up Weights 2 Swan	£3.49
PK2644	K.Change Pop-Up Weights 3 Swan	£3.25
PK5643	K.Change Pop-Up Weights 4 Swan	£3.49

Deadbait Oil & Air Kit

Injecting deadbaits with air gives them sufficient buoyancy to keep them off the bottom, above weed and debris. Baits can also be made more attractive by adding oils and flavourings. Deadbait Oil & Air Kit contains three needles with small, medium and large bores, plus one 20ml and one 10ml syringe for injecting air or flavours/oils into deadbaits.*

PK2027	Deadbait Oil & Air Kit	£3.35
--------	------------------------	-------

Deadbait Punch & Foam

Designed to enable dead baits to be made buoyant simply! A soft touch rubber handle ensures a positive grip with cold or wet hands. The nickel plated tube has a moulded plunger to insert the foam into the bait. With practice, the foam can be 'tuned' to create either pop-up or slow sinking dead baits.

PK3498	Deadbait Punch & Foam	£6.25
PK3531	Deadbait Punch Spare Foam	£4.49

Paternoster Sunk Floats

Pear shaped float designed to be used in conjunction with a sunk float paternoster rig which tethers a bait in a fixed position. This new clear blow moulded version is designed to be inconspicuous to avoid spooking wary predators. It can be fixed by the bottom rubber sleeve over the swivel of the essential uptrace, which avoids the need for a bead and stop knot.

PK8025	Paternoster Sunk Floats - Med	£1.79
PK8026	Paternoster Sunk Floats - Large	£1.79
PK8027	Paternoster Sunk Floats - XL	£1.79

Buoyant Bombs

These slow sinking buoyant bombs have been designed to provide casting weight to achieve distance when fishing deadbaits. Their buoyant design allows baits to sink slowly to rest on top of weedbeds. Each pack contains a 1oz and 2oz bomb. It's essential for these to be used in conjunction with 'drop back' indicator.

PK1047	Buoyant Bombs	£4.25
--------	---------------	-------

Deadbait Floater Sticks

Versatile balsa wood sticks which can be used to create popped-up, critically balanced or slow sinking deadbaits. Pack includes different sized sticks to suit varying baits. Nylon eyes allow the sticks to be retained on the rig. For bigger baits use the Large Deadbait Floater Sticks.

PK2693	Floater Sticks x 6	£4.99
PK5644	Floater Sticks Large	£4.99

* NB: Needles are dangerous. Please take care to store. Use responsibly.

Safe-Lok Links

Designed to lock positively and not open under pressure, these links are essential when connecting traces to the mainline, packed in 20s.

PK8046	Safe-Lok Links Size 1 Medium	£4.25
PK8047	Safe-Lok Links Size 2 Small	£4.25

Safe-Lok Link Swivels

High quality rolling barrel swivels fitted with Safe-Lok links. The ultimate in safety, packed in 10s. Useful for bait and lure traces.

PK1052	Safe-Lok Links Size 7 medium	£3.15
PK1051	Safe-Lok Links Size 10 Small	£3.15

Kwik Links

Mini links perfect for changing leads and creating changeable bomb links or paternoster tails. Sleeve after using a trace sleeve for perfect presentation.

PAC028	Kwik Links x20	£2.95
--------	----------------	-------

Knot Buffer Beads

Designed to accept our size 7 swivel, these profile beads create the perfect stop for our Run Rings on resistance-free rigs.

PAC021	Knot Buffer Beads	£2.25
--------	-------------------	-------

Safe-Lok Link Swivels

Combination of a strong coastlock design snap coupled with a rolling swivel to create the perfect connection for traces to your main line.

PAC027	Safe-Lok Link Swivels Size 7 x10	£2.75
--------	----------------------------------	-------

Kwik Change Trace Link

Designed to allow you to rapidly fit or remove traces without having to open the clip. Simply twist round the link. Ideal for both bait and lure traces.

PAC022	Size 5 x10	£2.95
PAC023	Size 7 x10	£2.95
PAC024	Size 10 x10	£2.95

Deadbait Casting Clips

Enables tough skinned baits like Mackerel and Eel sections to be lightly hooked. Allows a full-blooded cast to be made without needing to bury hooks in the tough skin of the bait, thereby avoiding the risk of not being able to strike the hooks into the predator's jaw. Packed in 4s with oval split rings.

PK8042	Deadbait Casting Clips	£2.49
--------	------------------------	-------

Run Rings & Buffer Beads

Large bore beads and low resistance run rings that are suitable for ledger links. Helps reduce drop takes.

PAC032	Run Rings & Buffer Beads	£2.25
--------	--------------------------	-------

Cross-Eye Power Swivels

Dual eye extra strong swivels designed for trace assembly. Use the diamond eye to attach the wire to ensure your trace sleeve slides easily over to protect the eye creating a neat, tidy joint.

PAC025	Size 5 x20	£2.75
PAC026	Size 7 x20	£2.75

Cross-Eye Power Swivels

Rotary Uptrace Beads

Designed to create the most effective Paternoster rigs possible, these Rotary Uptrace Beads allow the bait unhindered 360° movement which virtually eliminates tangles! Supplied with rubber sleeves for both ends of the bead and a large bore sleeve to cover the trace link.

PK5779 Rotary Uptrace Beads £3.45

Float & Braid Stops

Designed to give superior grip on braided and mono lines alike as a result of the increased surface contact area. Essential to anglers who float fish everywhere. In many cases, can be used directly next to the float without requiring a bead.

PAC002 Rotary Uptrace Beads £1.49

System Drifter

The large vane of the System Drifter float catches the wind and propels it, together with the bait, across the water to search for elusive pike. The addition of the extension arm improves the performance of the float by giving greater control, especially in very windy conditions. To cater for varying bait sizes, it comes supplied with interchangeable bodies which match our purpose built egg sinkers to provide a perfectly balanced set-up. Various vane colours are available to suit different light conditions and spare bands are available too.

PK8016 System Drifter £5.49

PK8019 Spare Vanes Orange £1.99

PK8020 Spare Vanes Mixed £1.99

PK8021 Drifter Bands £1.95

Ledger Stems

Extremely useful for keeping line above bottom weed when legering. Where sensitivity to resistance is important, these are a must. Fitted with buoyant bodies, low resistance run rings and beads.

PK8037 Ledger Stems x2 £2.49

PK8038 Trolling Stems x2 £3.49

Power Gum

Fifteen metre green 12lb Power Gum for tying stop knots etc. Supplied in a System Fox Box spool dispenser as standard.

PK2773 Power Gum Dispenser £4.25

Riggin Wire

This high quality nickel coated copper wire is ideal for attaching bait poppers and floater sticks to traces. Available on a dispenser designed to fit our System Fox Box.

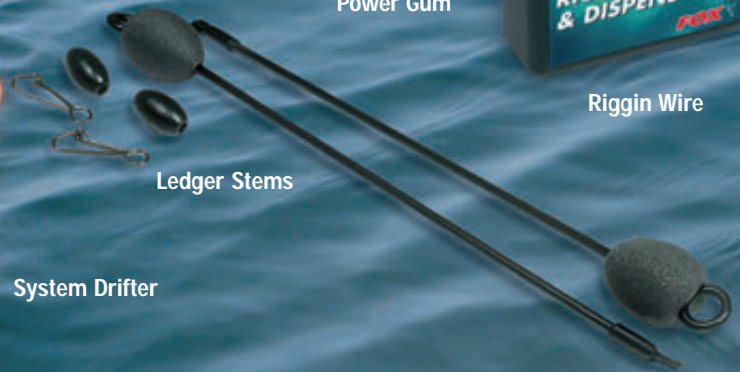

PK2774 Riggin Wire Dispenser £4.25

ACCESSORIES

Butt Rod Rest

Rear U Rod Rest

Duo Grip Rod Rest

Sidestrike River Rest

NEW!
for 2008

Duo Grip Rod Rest

Twin groove rear rod rest for maximum flexibility. Soft touch rubber inlay provides maximum grip to lock rods tightly in place.

Rear U Rod Rest

Rear rod rest with stainless steel screw thread.

Butt Rod Rest

Injection moulded rear rod rest.

Frontrunner Rod Rest Head

Deep grooved rod rest that allows easy passage of line during vicious takes. Includes soft touch rubber inlay for maximum grip.

Sidestrike River Rest

Designed for the river angler, the 'Sidestrike' features a 'cut away' side that allows the rod to be struck sideways against the flow without having to raise it first! Featuring a deep line slot with soft touch rubber to protect the rod. This also means it will not slide even when positioned at an acute angle. It includes a stainless steel stud and betalight slot on both sides of the rest for easy location when fishing at night.

Frontrunner

AAC004	Sidestrike River Rest	£2.99
BB4049	Frontrunner Rod Rest Head	£2.99
BB6211	Mini Frontrunner Rod Rest Head	£2.95
BB7392	Rear U Rod Rest	£4.25
BB2692	Butt Rod Rest	£1.95
BB5133	Duo Grip Rod Rest	£3.25

Cam Action Banksticks

Ultra long extending banksticks with standard 3/8" BSF thread. Available in three lengths with standard or Powerpoints.

STANDARD			POWERPOINT		
BS5800	30"	£9.99	BS5803	30"	£10.49

BS5795	12"	£8.99	BS5799	12"	£9.99

The successful pike angler appreciates how the finest adjustments can help catch more fish. That's why we've scrapped the plastic line clips on the Pike Swinger and Drop Arm indicator, replacing them with adjustable stainless steel line gate clips, which allow more precise adjustment - essential when using modern braids. The clips grip lines tightly yet release simply and effectively on the strike. Hi Visibility orange bodies, complete with a beta light recess, have also been included on these models.

Pike Swinger

One of the most versatile visual drop arm indicators ever produced, the Pike Swinger features a highly visible fluorescent red head with our patented line gate system which ensures a smooth release whether used with braid or mono. A 50gm sliding weight is used to alter the loading on the head. The loading can be set to zero resistance for freelineing through to fully loaded to counter the effect of undertow.

PK8032 Pike Swinger £9.99

Pike Drop Arm Indicator

The Drop Arm indicator features a highly visible fluorescent red head with our patented line gate system which ensures a smooth release whether used with braid or mono. Supplied with 4 interchangeable clips and locking covers that allow the indicator to be fitted to most common size banksticks.

PK8031 Pike Drop Arm Indicator £6.99

Different sized clips allow the swingers and drop arm indicator to be fitted to different size banksticks.

Line gate clip.

"Shy pike don't always pull the line from the clip - be observant and watch for your line tightening."

Mick Brown

£9.99

Pike Swinger

£6.99

Drop Arm Indicator

The sliding weight on the Pike Swinger allows the tension to be adjustable to suit conditions. The head has a moulded recess to accept a Fox Beta Lite (not included).

Carbo Flex Wire

A smooth, strong, durable carbon coated wire that is more resistant to predator's teeth than conventional multi strand wire. Extremely easy to tie or crimp (with the crimps supplied), Carbo Flex is the perfect material for all your trace making needs.

PK4044	20lb Carbo Flex 15 mtrs	£6.25
PK4045	30lb Carbo Flex 15 mtrs	£6.25
PK4046	40lb Carbo Flex 15 mtrs	£6.25

Easy Twist Trace Wire

Exclusive to Fox, this seven strand stainless steel wire is low in diameter and very supple. It is superb for making home-made traces and very kink resistant. The 20lb strength is ideal for close range work whilst the 30lb is perfect for heavy duty work.

PK7999	25 mtrs 20lb - 9.1kg	£4.85
PK8000	25 mtrs 30lb - 13.6kg	£4.95

Soft Steel® Trace Wire

Ideal for shy biting pike and zander where sensitive presentation is a necessity. Fox 25lb Soft Steel Wire is constructed from no less than 49 strands of wire, making it probably the most supple trace material on the market.

PK2616	Five metres 25lb Soft Steel Wire	£5.25
--------	----------------------------------	-------

Crimps

Crimping is a quick way of making strong traces. All are supplied in packs of 50s.

PK8002	20lbLok-Tight Crimps x50	£2.25
PAC029	20lb Ex Long Carbo x50	£4.25
PAC030	30lb Ex Long Carbo x50	£4.25
PAC031	40lb Ex Long Carbo x50	£4.25

Carbon Treble Hooks

Featuring a slim needle eye and finished in black chrome, the carbon treble is the choice of the open water predator angler looking for an extremely sharp hook. A good all round treble. The Zander anglers' choice.

PK5575	Barbed Size 4	PK5578	Semi-Barbed Size 4
PK5576	Barbed Size 6	PK5579	Semi-Barbed Size 6
PK5577	Barbed Size 8	PK5580	Semi-Barbed Size 8

2XS Carbon Treble Hooks

All the attributes of the carbon treble, but with a much heavier gauge wire. Excellent sharpness ensures efficient setting of the hooks, even at extreme range such as when drifter float fishing. The choice of the 'big fish' angler.

PK5569	Barbed Size 4	PK5572	Semi-Barbed Size 4
PK5570	Barbed Size 6	PK5573	Semi-Barbed Size 6
PK5571	Barbed Size 8	PK5574	Semi-Barbed Size 8

Treble Hook Safety Covers

Protect your hooks and fingers with this simple but highly effective device.

PK5638	Small	PK5641	X Large
PK5639	Medium	PK5642	XX Large
PK5640	Large	PAC018	XXX Large

Easy Twist Twiddling Stick

Precision engineered tool for easy trace twisting. Helps you to make traces to a professional standard.

PK8001	Easy Twist Twiddling Stick	£4.25
--------	----------------------------	-------

Trace Crimp Covers

Tapered rubber sleeves designed to provide a neat finish to rigs and traces made using Fox Crimps. Also helps eliminate annoying weed and debris from collecting on the trace. You get 50 per pack.

PK5783	Crimp Covers	£3.45
--------	--------------	-------

Treble Hook Sleeves

Designed to provide a neat finish and protect the wire wraps when making your own traces. Perfect for covering the upper treble on twin hook traces. There are 25 in each pack.

PK5780	Small	£2.40
PK5781	Medium	£2.40
PK5782	Large	£2.40

Bait Flags

These light rubber flags can be threaded over hook points, after the bait has been mounted, securing it in position. Also serve as an added attractant to predatory fish. You get 24 per pack.

PK5916	Red	£2.25
PK6114	Mixed Colours	£2.25

Large Diamond Hook Sharpener

Designed to hone hooks to a perfect needle point. Suitable for all hook patterns and sizes, the file allows the angler to touch up single or treble hooks that have been blunted. The file is set into a durable, easy grip rubberised handle and allows the angler to keep all hooks razor sharp!

PAC019	Large Diamond Hook Sharpener	£5.99
--------	------------------------------	-------

Twin Treble Trace

This ready-made trace is equipped with a pair of Fox Series 2XS trebles. Featuring Carboflex crimps covered in silicone tube, all traces are tied to our 30lb Carbo Flex wire. Ideal for both live and deadbaiting. Size 4 is Ideal for bigger baits, size 6 is the popular choice for pike and size 8 for zander.

PK5655	Semi Barbed Size 4	PK5658	Barbed Size 4
PK5656	Semi Barbed Size 6	PK5659	Barbed Size 6
PK5657	Semi Barbed Size 8	PK5660	Barbed Size 8

Deadbait/Uni-Rig Trace

Featuring Fox Series 2XS treble and Series 1 single hook, this trace is particularly suited for sink and draw deadbaiting. Featuring Carboflex Crimps covered in silicone tube, all traces are tied using our 30lb Carbo Flex wire and feature Fox Power Swivels for safe connection to the main line.

PK5661	Semi-Barbed Size 4	PK5658	Barbed Size 4
PK5662	Semi-Barbed Size 6	PK5659	Barbed Size 6
PK5663	Semi-Barbed Size 8	PK5660	Barbed Size 8

Paternoster Trace

Similar to the twin treble, but shorter in length to be fished with paternoster style rigs. Featuring Carboflex Crimps, Safe-lok links covered in silicone tube, all traces are tied to our 30lb Carbo Flex wire. This trace MUST be used with an uptrace to prevent bite offs.

PK5652	Semi Barbed Size 4	PK5667	Barbed Size 4
PK5653	Semi Barbed Size 6	PK5668	Barbed Size 6
PK5654	Semi Barbed Size 8	PK5669	Barbed Size 8

Lure Trace

High quality lure traces available in either 20lb or 30lb. Easy Twist wire. Features Safe-lok link and swivel.

PK7997	Lure Trace 20lb - 9.1kg
PK7998	Lure Trace 30lb - 13.6kg

Helicopter Rotary Uprace

Essential for all paternoster rigs to avoid bite-offs if the bait trace gets too close to your main line. You should fish the uptrace above the paternoster trace. A deadly method for tethering the bait in a fixed position - full details are on the packaging. Manufactured from our Carbo Flex wire, this helicopter version is virtually tangle free.

PK5670	Helicopter Rotary Uprace 40lb
--------	-------------------------------

"You could try your own traces - its not difficult at all and we supply all you will need."

--------	----------------------------

Jerkbait Traces

These solid traces have been designed, and carefully balanced, to ensure anglers get the best from the Fox range of lures. Two versions are available: Micro Jerk and Jerkbait, constructed from 69lb and 174lb camo brown stainless wire respectively. All snap links and swivels are covered with clear shrink tube to protect the twists and reduce tangles. The lighter traces are 7.5"/190mm in length; and the heavier traces are 11"/280mm.

LS4085	Solid Jerkbait Traces x 4
LS5013	Micro Jerk Solid Traces x 5

Pike Trace Wallet

This dedicated trace wallet features two 23" internal foam rig boards, separated by a heavy duty plastic divider. Traces up to 18" can be stored without them becoming kinked or tangled during transit. Attaching to a stainless steel crossbar, the traces are secured by using large headed map pins which are easy to remove, even with cold and damp fingers!

PK3532	Trace Wallet
