### Stowaway™ Boat Net

The Fox Stowaway Boat Net has been designed primarily with boat and lure anglers in mind. The pear shaped frame is made of D-section aluminium and is large enough for the biggest of pike. The frame measures 770mm x 970mm and supports a deep knotless mesh which is both fish-friendly and means that lures won't easily penetrate. The Slide Lok handle runs through the block to make for easy storage when in transit in a boat or car. Once extended and locked into place, with the easy to locate pop-up mechanism, the handle measures in at 1200mm.

*The Slide Lok handle makes for easy storage when on a boat. Once extended it measures 1200mm.*

Stowaway Boat Net

# NETS

Conservation and fish care should be the first priority of the modern specialist angler. As a leading company in the big-fish world, we are conscious of our own responsibilities to the environment, and realise that safety is high on the list of priorities of our customers. Owning a suitable landing net should be an important consideration of any specialist angler. All Fox nets have lightweight ultra strong frames and soft fish-friendly meshes. One of the finest moments in angling is watching a big fish that you have just caught swim strongly away and disappear back into the depths with a broad sweep of its tail.

### Carbon Folding Net

Featuring Fox's unique and patented fast release Trigger-Lok system, means that the net arms can be collapsed and removed in seconds to allow a fish to be carried to the unhooking mat with minimum fuss. Featuring special slots at the end of each arm and in the spreader block, the net is highly visible at night because it can be fitted with three betalights to form a luminous triangular target. The 42" version is ideal for most pike and big carp, whilst the 50" version is available where the pike or carp run exceptionally big or even for catfish anglers.

| LN7524 | Carbon Folding Net 42" (106cm) | £99.99  |
| LN8093 | Carbon Folding Net 50" (127cm) | £109.99 |

### Warrior® Landing Net

A high quality landing net that's available in two versions - 42"/106cm and 50"/122cm. The arms include a moulded Beta Light recess to ensure the net remains highly visible when landing fish at night. Other features include the handle having non-slip grips to ensure total confidence in landing your predators, Fox's unique moulded spreader block and a fish-friendly mesh for total fish conservation.

| LN5846 | Warrior Landing Net 50" (122cm) | £54.99 |

### Predator® Landing Net

Designed for either lure or bait fishing for predators, the Fox Predator Nets are ideal for both the roving lure angler and the bait fisherman. The spoon shaped frame is made from high tensile aluminum and carries a special mesh which prevents trebles from snagging and shakes dry after use. They feature a strong moulded block with a 3/8" thread which enables it to be fitted to all standard landing net poles.

| PLN002 | Predator Landing Net 30" (76cm) | £14.99 |

### Boat Accessories

The Boat Unhooking Mat offers protection to predators that require handling within the confines of a boat. It features a 25mm soft foam mattress with a special coating to help prevent mucus loss. It's designed around a hinged, fold out format and is fitted with carry handles and locking clips. The new lightweight Boat Chair is lightweight, yet highly durable and designed to fit bigger reservoir boats. However, it will still fit many other boats with a sturdy 'cross member' seat with adequate rear clearance.
